

Informational Session on **The Intracortical Visual Prosthesis Project**

Conducted By: The Illinois Institute of Technology &
The Chicago Lighthouse

Sponsored By: The National Institute of Health, Brain Initiative

Come learn about an experimental device intended to restore visual perception for those who are blind. Meet the researchers, learn about the intracortical visual prosthesis study, and ask questions at this educational information event hosted at The Chicago Lighthouse.

Date: November 29, 2018 10:00 AM – 12:00 PM

Location: The Beatrice C. Mayer Senior Center at The Chicago Lighthouse, 1850 W. Roosevelt Rd., Chicago IL, 60608

Please note that this session is intended for Ophthalmology, low vision and rehabilitation professionals only.

For more information and to reserve your spot please contact Patricia Rodriguez at 312.997.3672, or Patricia.Rodriguez@Chicagolighthouse.org

Your participation in this research information session is voluntary. Your questions may be recorded during the information session to better communicate information about the study to others.
