The newly redesigned Connect 12 combines a high-performance digital magnifier with the versatility of a tablet, plus unmatched ease of use and integrated access to newspapers or magazines from online libraries. This ideal solution for active seniors, students and professionals, allows free and open access to more than a million apps.

Smarter and more connected than all other low-vision products, HumanWare's Connect 12 is the evolution of the most advanced digital magnifier product line. The new simple interface gives you all the tools you need in one place allowing you to choose what you want to do: enlarge a printed document, read a book, newspaper or magazine, adjust for your visual comfort, sign or fill a form and more.

Augmenting the Connect's renowned attributes with a set of outstanding features makes the Connect 12 a powerful tool for low-vision users, whether you're at home or on the go.
