- 28 viewing modes to optimize contrast and brightness
- Slide mechanism provides flexibility for various camera arm positions
- Save documents, pictures or books and export files to your PC
- Memory setting for each camera position
- Reading preview lets you read the entire page or toggle through paragraphs and read selected text
- Set up is easy, just plug in and begin
- 2 year warranty
- Designed and Assembled in the USA

**The DaVinci Pro Sony® HD camera displays crystal clear images in vibrant color and contrast, resulting in the brightest white and deepest black. DaVinci Pro's high resolution LCD produces maximum levels of picture detail for a clear, bold display and a large field of view that allows you to see more on the screen.**

**Give your tired eyes a rest with our text-to-speech (OCR) feature. Let DaVinci Pro read your favorite article or book aloud. Simply place your printed text under the DaVinci Pro camera and press a button; DaVinci Pro will begin reading what is on the screen within a few seconds. Choose a male or female voice and use the headphone port to enjoy this feature in private. Many different languages are available. DaVinci Pro can be used as a video magnifier to see near, far and everything in between. You may also use the self-viewing camera position, like a mirror, for applying make-up or other personal grooming tasks. With DaVinci, you'll have the freedom to read, write, view presentations, whiteboards, and work on crafts and hobbies at work, school or at home.**
