

IrisVision Inspire

Inspire leverages IrisVision's award-winning software in an all-new, lightweight headset designed for anyone with low vision who wants to live their vision for life by fully leveraging the vision they have.

Inspire is a low-profile wearable software platform delivering functional sight for low vision. From the team that developed the multiple award-winning IrisVision Live headset, Inspire is an all-in-one, all distance, & autofocus solution designed for intuitive ease-of-use with a battery that lasts for 3+ hours of continuous use and 8-10 hours while on standby.

Only Inspire offers a growing software platform with two years of unlimited cellular data to keep users connected and supported wherever they are.

IrisVision Inspire offers three viewing modes to best suit your needs...

SCENE

For distance, intermediate or near tasks, this vivid, high-definition view offers instant auto focus and an industry-leading 70° field of view with up to 14X mag.

READING

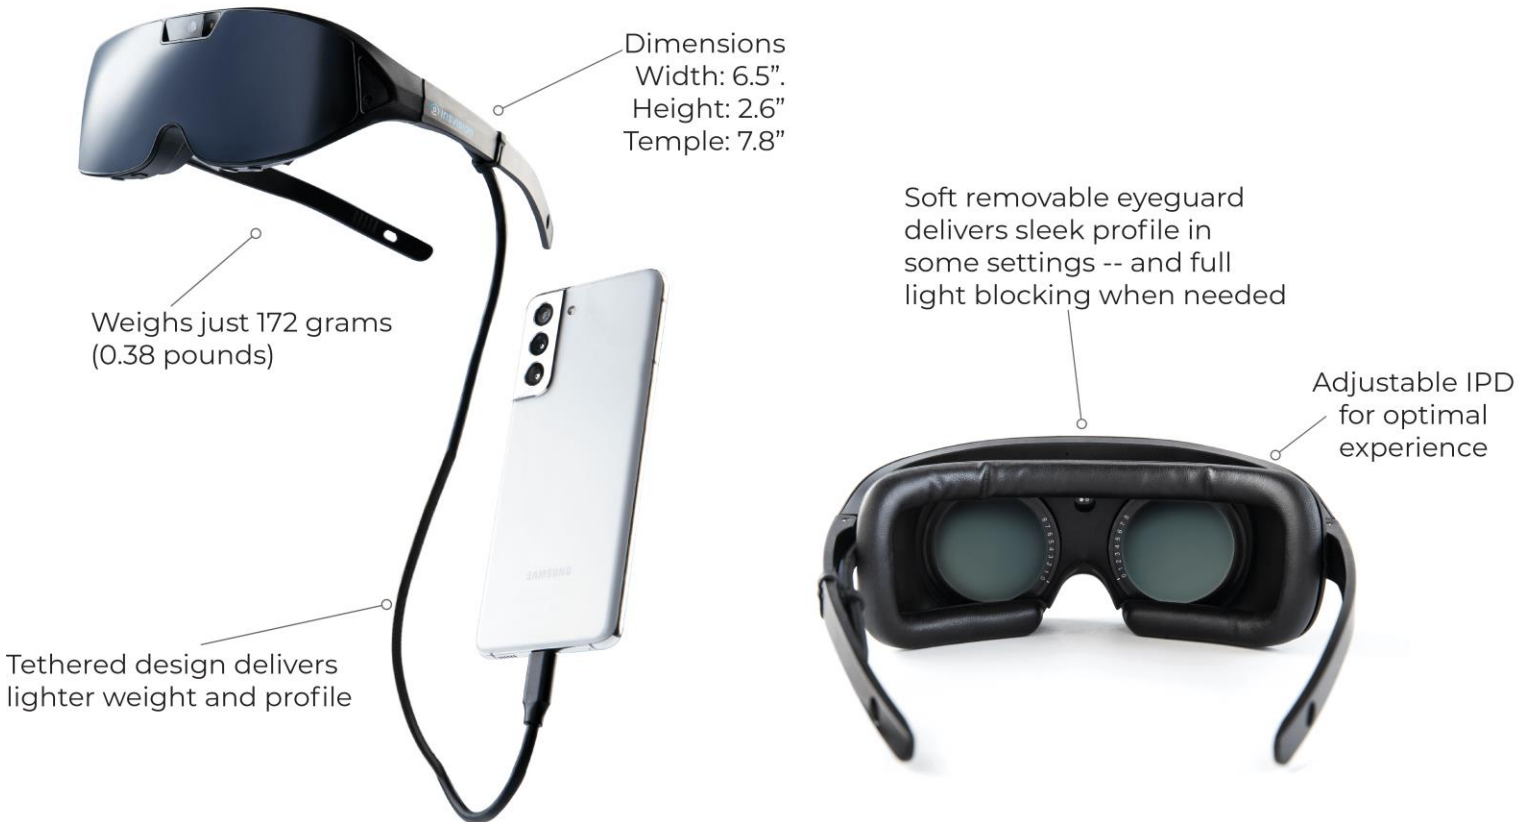

Reading text in a book or magazine can be made easier using our bar magnifier to comfortably view a segment of words. No longer lose your place or skip lines.

TELEVISION

Don't miss a minute of movies, sports, or favorite TV shows, with a special mode to optimize device and software settings for watching television

VOICE CONTROLS

Using Inspire is as easy as speaking out loud. Simply say, "Reading mode," "reduce brightness," or "Zoom in."

For those without access to WiFi or those who wish to continue using cellular data outside of the house, IrisVision now offers an extended Data Usage Plan. For \$20 a month, use up to 500MB of data to stream and save YouTube videos, use Amazon Alexa smart commands, and more.

\$3995.00 + Medical Tax (2.25%) + \$35 Shipping
