

OrCam Read

What is OrCam Read?

OrCam Read is a handheld reading device that reads from any printed surface or digital screen. It is the size and shape of a pen and has an amazing OCR (Optical Character Recognition) capabilities – it's fast, accurate and easy to use. Similarly to OrCam MyEye, it take a picture of the text and instantaneously reads it aloud.

Who can benefit from OrCam Read?

OrCam Read has been designed to address the needs of people with reading disabilities, such as dyslexia, and those with mild to moderate low vision.

OrCam Read comprises:

- **13-megapixel camera in front**
- **Built-in speaker**
- **Bluetooth connectivity**
- **Only 4 buttons**
 - **Power**
 - **Trigger**
 - **Plus – increases volume or rate of speech**
 - **Minus – decreases volume or rate of speech**

Functionality:

3 reading options:

- **Capture a block of text with a box-shaped laser beam**
- **Choose where to start reading with an arrow-shaped laser beam**
- **Smart Reading for use of voice commands to move through a document**
- **No need to scan text or follow a line, all you have to do is hold the device in front of the text, push a button, and the text is read aloud instantly**
- **No internet connectivity is required and there is no connectivity to the cloud**

Smart Reading:

- **A new way to interact with your text. Simply ask for the text that interests you: “Read the headlines,” “Read amounts,” or “Start from” a specific section (like “desserts” in a menu).**

Warranty and upgrades:

1 year warranty with free software upgrades during the warranty period.
