

Smart Reader HD

The Smart Reader HD is a lightweight, portable reader/scanner with large built-in user friendly tactile control buttons.

A fully integrated solution, the Smart Reader HD offers the advantage of a built-in HD camera and OCR. Smart

Reader HD enables individuals with low vision to retain the pleasure of reading by listening along or by attaching a monitor to view the text.

Users are able to view in color, enhanced high-contrast positive or negative modes, allowing for higher contrasts and easier viewing. With easy-to-use buttons and dials, customers can enlarge or reduce the text in seconds and change viewing options for easier visibility.

Smart Reader HD Features:

- Position document and in seconds it begins reading aloud
- Ideal for reading magazines, books, newspapers, etc.
- Built-in speaker offers premium audio quality
- Over 20 languages available in natural male or female voices
- Large tactile control buttons
- Built-in 8 hour rechargeable battery
- Attach headphone for privacy
- Connect to any desktop monitor or TV (HDMI and DVI) to enlarge image and follow along
- Optimize contrast & brightness with over 30 color modes
- Easy image scan, save and recall
- Import/Export document feature through USB port
- 1000 full page OCR scans can be stored at minimum
- 2 Year Warranty
- Lightweight - 4lbs
