

# Vario 16 FHD

**The Vario Digital FHD is a foldable desktop video magnifier with outstanding image quality and compact design. It features a 15.6" full HD monitor with optical zoom from 1.3x - 45x magnification and an FHD camera that provides a true color image with a large field of view.**

**The large tactile buttons and turn dials with voice output on menu mode make the Vario Digital FHD easy to operate. It provides bright LED illumination with lights located in two areas, on the arm and on the back of the monitor, which are adjustable to provide uniform, shadow-free viewing. And the widescreen format of 16:9, tilting camera and large viewing area make it easier to read large documents.**

**Images can be captured and stored on a removable 8GB SD card and viewed either on the LCD screen or on a computer monitor when connected. The blue arrows on the side of the monitor can be used for dynamic line scrolling on the captured image. The built-in type C USB port allows for data transfer. Its intuitive operation and practical folding design make it an ideal desktop video magnifier for the visually impaired.**
