

Zyrlo LyriQ Auto Reader

The LyriQ Assistive Reader is designed to assist people living with blindness or vision impairments: this scan-and-read device scans printed documents and reads them out-loud. It is spectacularly fast, extremely accurate, and very easy to use. With the LyriQ, you can read a book, an envelope, the letter that came in it, a prescription label and anything else.

Place the document on the device's base surface: the LyriQ will immediately scan it and start reading the contents out-loud: no waiting, pressing buttons or any other ways of getting frustrated. The interactive and responsive LyriQ takes a couple of seconds to start reading.

The LyriQ Reader Advantages

- **Simple:** place the printed page on the LyriQ Reader's reading surface and start listening to the contents
- **Responsive:** immediate result and feedback. No getting lost, no confused waiting. Only 1-2 seconds before you hear it.
- **Compact:** fold flat, store like a laptop, weighs 3lbs
- **Intuitive:** minimal actions are necessary to make use of other (basic, few and important) device features – convenient large tactile buttons support and assist every step of the way
- **Languages:** can read in 20 different languages, comes pre-installed with English and Spanish.
- **Bluetooth:** connect to external speakers or hearing aids
- **Battery / AC powered:** 12 hour battery life allows taking the device from the living room, to the kitchen, to outside on the patio for relaxed and pleasant reading; or plug into an outlet, if sitting close by.

Optional LyriQ Reader Keypad – \$225

The LyriQ Reader Keypad gives more options to navigate the text by character, word, sentence, or paragraph via additional buttons. The LyriQ Reader Keypad is wireless and snap-attaches to the back of the device.

\$1850 + 2.25% (Medical Tax) + \$25 (Shipping)
