Manufacturer

About Chicago Lighthouse Wall Clocks

When you buy Chicago Lighthouse clocks, you support jobs for Americans who are blind, including Veterans.

- The Chicago Lighthouse is an AbilityOne clock manufacturer and all clock models are TAA Compliant.
- Chicago Lighthouse wall clocks are the standard of excellence in timekeeping.
- Each clock is tested for accuracy and functionality before being packaged and guaranteed by a one-year limited warranty.
- EcoPure® plastic frames are durable and biodegradable. Black and brown framed clocks contain 30% post-consumer recycled content.
- Lenses are shatter resistant and UV protected.
- Hardwood models feature a rich mahogany finish and a durable glass lens.
- Component parts are made in the USA, whenever possible.
- Most of our traditional analog clocks can be customized with your logo.

For ordering information, contact your authorized distributor.

For further information about our clocks or other Chicago Lighthouse Industries products, please contact us at (800) 842-8624.

Profits from your purchase help fund programs and services at The Chicago Lighthouse— a world-renowned social service organization serving the blind, visually impaired, disabled and Veteran communities.

Finding The Right Movement

Chicago Lighthouse clocks offer several timekeeping movement options. Choosing the right one for your needs can make all the difference.

ASSEMBLED
IN THE
USA
by people who
are legally
BLIND

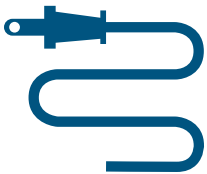

QUARTZ

Quartz movements are one of the most widely used timekeeping technologies used in most clocks and watches

Assembled in the USA.

Available In:  Analog  Digital

ELECTRIC

Electric clocks feature a five-foot UL certified chord compatible with any standard outlet. Ideal for locations where battery replacement is difficult.

Assembled in the USA.

Available In:  Analog  Digital

DAYLIGHT SAVINGS SELF-SET

Self-Set clocks are programmed to change for Daylight Saving Time without the need for a signal. Ideal for use in facilities where radio signal may not reach atomic radio-controlled clocks. They also eliminate labor costs associated with adjusting the clocks in large facilities

Assembled in the USA.

Available In:  Analog  Digital

ATOMIC RADIO-CONTROLLED

Atomic radio-controlled clocks feature the latest precision radio-controlled movements that receive daily time signals from the National Bureau of Standards Atomic Clock in Colorado. They receive a daily self adjusting time signal, and automatically adjust for Daylight Savings Time for any time zone. **Assembled in the USA.**

(NOTE: Atomic clocks may not work in environments where signal reception is blocked, including dense building structures and facilities with extensive use of electrical equipment, such as hospitals and medical facilities.)

Available In:  Analog  Digital

Assembled in Chicago, Illinois by people who are legally blind.

WE BUILD CLOCKS AND WE CHANGE LIVES

The Chicago Lighthouse has hand produced more than 7 MILLION high quality clocks. Each and every one is built with pride by people who are blind or visually impaired!

Chicago
Lighthouse
Industries

What began in 1906 as a subcontracting project for a basket-weaving shop is now called Chicago Lighthouse Industries, a sister agency to The Chicago Lighthouse with a mission focused on providing industrial job opportunities for people who are blind or visually impaired. We began producing wall clocks in 1977 for sale to the federal government. Today, we sell to federal, state and municipal agencies, as well as to the commercial market. To date, we have crafted more than 7 million clocks and counting.

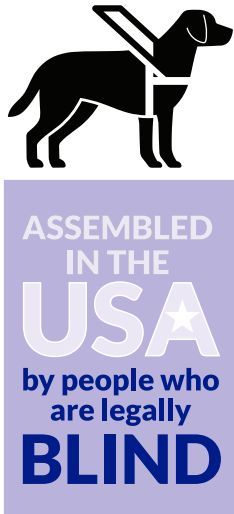

**Proceeds support programs of The Chicago Lighthouse –
serving the blind, visually impaired, disabled and Veteran communities.**

For ordering information, contact your authorized distributor.
*For further information about our clocks or other Chicago Lighthouse Industries products,
please contact us at (800) 842-8624.*

Chicago Lighthouse Industries is the social enterprise arm of a non-profit, The Chicago Lighthouse. This business model provides industrial job training and meaningful employment for people who are legally blind through the production of high-quality, brand-name consumer products for federal and commercial customers. We also perform subcontracting work for outside organizations, such as call centers, as well as digital accessibility website and app consulting.

In addition to clocks, Chicago Lighthouse Industries assembles and distributes a wide range of products including planners, calendars, screen and lens cleaning kits, foot & back rests, monitor arms and a full line of hand sanitizers. (Some products are only available to federal government customers)

The Chicago Lighthouse also provides employment opportunities by managing customer service call center operations for large and small organizations including hospital systems and government agencies.
