About SKILCRAFT Wall Clocks

When you buy SKILCRAFT clocks, you support jobs for Americans who are blind, including Veterans.

- All SKILCRAFT clocks are TAA Compliant and fall under the AbilityOne Program.
- SKILCRAFT wall clocks are the standard of excellence in timekeeping.
- Each clock is tested for accuracy and functionality before being packaged and guaranteed by a one-year limited warranty.
- EcoPure® additive found in most plastic bodies helps breakdown plastic parts upon disposal. Most clock bodies are made using 30% post-consumer recycled materials.
- Lenses are shatter resistant and UV protected.
- Hardwood models feature a rich mahogany finish and a durable glass lens.
- Component parts are made in the USA, whenever possible.
- Most of our traditional analog clocks can be customized with your insignia or logo.

For ordering information, contact your authorized distributor.

For further information about SKILCRAFT clocks or other Chicago Lighthouse Industries products please contact us at (800) 842-8624.

Profits from your purchase help fund programs and services at The Chicago Lighthouse— a world-renowned social service organization serving the blind, visually impaired, disabled and Veteran communities.

DIGITAL CLOCKS

DIGITAL RADIO-CONTROLLED, ATOMIC MOVEMENT

Sleek and versatile. Time, date and indoor temperature are displayed with an easy to read LCD display with 2.75" high time digits. The atomic movement is precise, receiving a daily signal from the National Bureau of Standards Atomic Clock in Colorado, ensuring superior accuracy. Automatically adjusts for daylight savings time. Dual alarm with snooze feature. Displays time in standard or military format. Date can be displayed in 8 languages. Can be hung on a wall or placed on a surface top. For use in the continental US only. Two AAA alkaline batteries required (not included). Assembled in USA.

Digital Radio-Controlled, Atomic Signal Clock

FRAME SIZE	COLOR	NSN
9.75" x 7.25" x 1"	Silver	6645-01-661-1877

LED LARGE DISPLAY DIGITAL SELF-SET MOVEMENT CLOCKS

Self-Set movements automatically adjust for daylight savings time. They work in buildings that cannot receive an atomic signal. LED clocks consume less energy than LCD displays and are much brighter and easier on the eye. Clocks display large digit time, calendar, and indoor temperature (F° or C°).

Daylight Savings Self-Set Clock with LED Jumbo 4" Numbers 12 hour format; wall mount or table top display

FRAME SIZE	COLOR	NSN
5.9" x 14.4" x 1.6"	Black	6645-01-698-8079

Daylight Savings Self-Set Clock with LED Large 2.5" Numbers 12 or 24 hour format; wall mount or table top display

FRAME SIZE	COLOR	NSN
6.3" x 9.7" x 1.5"	Black	6645-01-698-8078

QUARTZ MOVEMENT CLOCKS

Quartz clocks are classic staples of any office and have an accuracy of ± 2 minutes per year. EcoPure® additive found in most plastic bodies helps breakdown plastic parts upon disposal. Most clock bodies are made using 30% post-consumer recycled materials. Clear lenses are shatter resistant and UV-protected. One AA alkaline battery required (not included). Assembled in USA. Most models can be customized with your insignia or logo.

DAYLIGHT SAVINGS SELF-SET WALL CLOCKS

Self-Set clocks automatically change for daylight savings time, saving you the labor costs of changing the clocks in your facility manually when it's time to spring forward or fall back. There's no need for a radio signal, Self-Set clocks are ideal for anywhere from a basement to a hospital to a secure facility where signals may not be able to reach a radio-controlled atomic model. Daylight savings change feature can be turned off when used in areas that do not observe daylight savings time. EcoPure® additive found in most plastic bodies helps breakdown plastic parts upon disposal. Most clock bodies are made using 30% post-consumer recycled materials. Clear lens is shatter-resistant and UV-protected. One AA alkaline battery required (not included). Assembled in USA. All models can be customized with your insignia or logo.

RADIO-CONTROLLED ATOMIC MOVEMENT WALL CLOCKS

Atomic movements are precise within one second of deviation per 30 million years. They receive a daily signal and from the National Bureau of Standards Atomic Clock in Colorado recalibrating accuracy each day. They automatically adjust for daylight savings time. EcoPure® plastic frames will biodegrade in a landfill; black and brown frames contain 30% post-consumer recycled content and have a clear shatter-resistant and UV-protected lens. Genuine hardwood models feature a rich mahogany finish and a durable clear glass crystal. One AA alkaline battery required.

Slimline Low-Profile Frame

FRAME SIZE	DIAL SIZE	COLOR	LOGO	NSN
12.75" x 1.8"	12"	Black	No	6645-01-491-9814
12.75" x 1.8"	12"	Black	Yes	6645-01-491-9815
9.25" x 1.8"	8"	Black	No	6645-01-491-9809

Hardwood Frame with Mahogany Finish

FRAME SIZE	DIAL SIZE	COLOR	LOGO	NSN
16" x 1.5"	12"	Mahogany	No	6645-01-492-0373
16" x 1.5"	12"	Mahogany	Yes	6645-01-491-9823

Octagon-Shaped Hardwood Frame with Mahogany Finish

FRAME SIZE	DIAL SIZE	COLOR	LOGO	NSN
12.5" x 1.8"	8"	Mahogany	No	6645-01-491-9838
12.5" x 1.8"	8"	Mahogany	Yes	6645-01-491-9839

Note: Clocks with atomic movements are for use only in the Continental US and in daylight savings states. Atomic signals may not work in environments where radio signal reception is blocked, including dense building structures and facilities with extensive use of electrical equipment, such as hospitals and medical facilities. For these areas consider a Daylight Savings Self-Set model.

24 HOUR WALL CLOCKS

24 Hour and 12/24 Hour clocks tell time on a 24-hour basis, perfect for military and international use with minute marks for precise reading at a glance. Available with quartz and atomic movement. EcoPure® additive found in most plastic bodies helps breakdown plastic parts upon disposal. Most clock bodies are made using 30% post-consumer recycled materials. Clear lens is shatter-resistant and UV-protected. One AA alkaline battery required (not included). Assembled in USA. Most models can be customized with your insignia or logo.
