

ENVISION GLASSES

Envision Glasses are AI for your eye. They use the power of speech to make everyday life more accessible for any visual impairment. Built like a platform, the Envision Glasses are also constantly updated with new features and functionalities, such as...

- **Scan text:** Turn any text into speech with Scan Text. Be it handwritten notes, books or your favorite recipes. In over 60 languages.
- **Video Call:** Call someone you trust to share your point of view, with Video Call. For a second opinion while shopping or exploring a new path.
- **Instant Text:** Read any short text that's in front of you with Instant Text. Find everything from house numbers, the products you love or even your favorite vinyl.
- **Scene Description:** Get detailed scene descriptions anywhere. So you know what's around, every step of the way.
- **Facial Recognition:** Find your colleagues or friends in an instant, with Face Recognition. Let's get those conversations started.

Is that all? Well, hold that thought. You can also:

- Find missing items in no time with Object Recognition
- Sort laundry easily with Color Detection
- Check if the lamp is turned on with Light Detection
- Dive into that book you want to read with Batch Scan
- Share the information you come across with Export Text

Tech Specs: Envision Glasses currently works with Google Glass Enterprise Edition 2. In addition to a sleek design, it comes packed with great tech specs:

- **Camera:** An 8-MP camera with a wide field-of-view that captures every detail.
- **Wi-Fi and Bluetooth:** Keeps you connected at all times.
- **Battery:** 5-6 hours with regular usage. USB-C supported fast charging.
- **Audio:** Directional Mono Speaker, USB audio and Bluetooth audio.
- **Robust & Light:** Water and Dust resistant. Weighs a tenth of a pound.

Unsure about the glasses? Try out Envision's technology with the EnvisionAI app on the Google Play and Apple App Stores!
