- Customizable: Preferred zoom, lines/blinds, menu text size, color schemes (20)
- 35 available interface languages
- Power save/sleep mode
- High-resolution video output
- Image gallery capacity: 1000s
- 7 hours continuous use (device only)
- 4.5 hours continuous use (using Led light)

How does this product change your life?

Seamless reading, maximum comfort. The explorē 8's 8-inch touchscreen and intuitive design make navigating documents easy without constantly having to adjust your reading material. The included stand accessory ensures a comfortable and hands-free reading experience, making it perfect for books, small objects, and writing tasks.

Empower your vision, transform your world. The explorē 8 is a game-changer for those with vision loss, offering powerful magnification technology to support your everyday activities. Whether reading, viewing photos, or examining maps, this device enhances your productivity and enriches your experiences at home, work, or school. Say hello to a world of clear, vivid vision.

Elevate your daily tasks, unlock your potential. The explorē 8, along with its innovative stand accessory, provides a versatile space for reading and writing. Use the device on any flat surface to perform delicate motor tasks like signing documents, changing a watch battery, or completing a word search. Embrace the freedom to tackle daily tasks with ease and confidence.

Adventure-ready, always by your side. The lightweight and portable explorē 8 is your perfect partner when you're on the move. Enjoy the independence and assurance that comes with always having a reliable visual aid with you. Whether exploring urban environments or nature, the explorē 8 helps you capture and enjoy every detail.
