

OrCam Read 3

- **The Ultimate All-in-One Solution**

OrCam Read 3 is an all-in-one solution for people with vision loss or reading fatigue. It can be used as a customizable, next-generation magnifier for pictures, handwriting, math formulas, and text; as a handheld reading companion; or as a stationary reader.

- **Empower Your Reading Journey**

Inspired by the invaluable feedback from the low vision community, we designed a holistic tool that provides the right solution at the right time. From magnifying text and images, to transforming any text into speech at home or on-the-go, OrCam Read 3 supports your evolving needs.

- **Equipped with OrCam's New "Just Ask" AI Assistant**

With OrCam's Just Ask, you can now ask your OrCam anything about your document and it will read back the requested information. For example, you can ask for a summary; or ask the date, time, or location information from an invitation; or ask how much is due on a bill - all using natural language!

What's new:

- **Target users with mild vision loss**
- **Transform any computer screen or tablet into a magnifier**
- **Zoom in and zoom out, recognize handwriting, reformat text to custom preference, text to speech**

Handheld Reading Companion

- **Target users with moderate vision loss**
- **Improved hardware featuring intuitive yellow buttons**
- **New voice options**

Stationary Reader with Specifically Designed Stand

- Turn text into speech
- Navigate with vocal commands, device buttons and hand gestures

Interactive AI assistant package

- Summarization
- Translation
- Reads handwriting
- Uses intext and outsource information to answer questions asked

Also featuring:

- **OCR (Optical Character Recognition):** Scan any text, from any surface.
- **TTS (Text-to-Speech):** automatically transcribes any scanned text and reads it out loud.
- **Smart Reading:** Move to the relevant part of the text using voice commands.
- **Voice Commands:** Control the device using voice commands or buttons.
- **Money Notes:** Identify different denominations.
- **Product ID:** Identify common products by scanning their barcodes.
- **Languages:** Available in more than 20 languages, including English, Spanish, German, French, Portuguese, Russian, Arabic, Mandarin, Japanese, etc.
